Roof-A-Cide™ makes algae-stained roofs and premature replacement a thing of the past in Bryant, Arkansas.

Bryant, AR - May 3, 2005 – Roof-A-Cide, the manufacturer of environmentally safe roof cleaning solutions and algae preventatives is making their products available throughout Central Arkansas through a recently established Authorized Roof-A-Cide™ Applicator – Hixon Roof Renew (501/847-7249).

Roof-A-Cide™ is an EPA approved algaecide / fungicide specifically designed and approved for use on roof surfaces. Roof-A-Cide™ is safe to work with, safe for the roof, and safe for landscaping. Roof-A-Cide™ has been used successfully on over 70,000 properties to date throughout the Southeast. Roof-A-Cide has Authorized Applicators in Florida, Georgia, Louisiana, North Carolina, South Carolina, Texas, Virginia and now Arkansas.

Roof-A-Cide™ has been approved for use by GAF Materials, the largest shingle manufacturer in the United States and will inhibit the growth of dark algae stains for years with each treatment. Preventative treatments generally take 30 minutes or less and a roof treated with Roof-A-Cide™ every few years will remain free and clear of unsightly algae and fungus growth for the life of the roof.

Hixon Roof Renew can be reached at 501/847-7249 for a fast, free estimate on cleaning and stain prevention.

For additional information about Roof-A-Cide products or Applicator Opportunities, contact us at our Palm City office: 800/806-6727, or on the internet by typing: www.Roof-A-Cide.com.
